ALEXANDRIA, VA 22313-1450

SIR:

Applicant acknowledges with appreciation the indication of allowability of the claimed invention. In response to the Examiner's Statement of Reasons for Allowance in the Notice of Allowance of August 11, 2008, Applicant respectfully submits the following comments.

In the Examiner's Statement of Response for Allowance on pages 2 and 3 of the Notice of Allowance mailed August 11, 2008, paragraph 3 states in part:

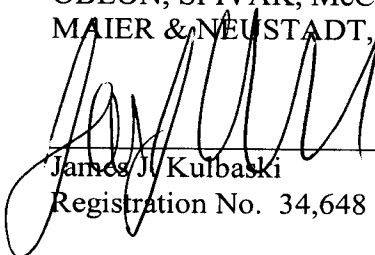

The following is a statement of reasons for the indication of allowable subject matter. The prior art . . . of Mehra fail to teach or suggest an 'activation unit configured to create and activate a new root document folder within the hierarchical organization of information, the root document folder corresponding to the document path of the request-related information item of the request, in the user profile, upon determination that the root document folder does not exist in the user folder'. The method as claimed within independent claims 1, 14, 15, 23, and 25 as stated above would not have been obvious to one of ordinary skill in the art at the time the invention was made to have modified the reference to Mehra to come up with applicant's claimed invention.

Although the above comment seems to be directed to Claims 1, 14 and 25, it is respectfully noted that independent Claims 15 and 23 do not include all of the elements

recited above. For example, Claims 15 and 23 recite a method comprising “creating and activating” and not an “activating unit configured to create and activate.” Accordingly, it is respectfully submitted that the above quoted statement applies only to independent Claims 1, 14 and 25 (and claims dependent therefrom), and not to independent Claims 15 and 23 (and claims dependent therefrom).

Respectfully Submitted,

OBLON, SPIVAK, McCLELLAND,  
MAIER & NEUSTADT, P.C.
